EXECUTIVE SUMMARY

1. The Graded Stakes Review for races run in the 2009-10 season has been completed by the Committee established for that purpose. The schedule of Group and Listed Races to be run in the 2010-11 season has now been confirmed.
2. The format of the Report has been changed this year in an attempt to make it clearer and more easily understood.
3. In the schedule of Black Type races for 2010-11, there has been one change made. The DLA Phillips Fox Cornwall Handicap [registered as Cornwall Handicap] has been de-listed. Under the revised schedule, the total number of Black Type flat races is 145, although one will not be programmed in 2010-11 (see 4, below).
4. The Westbury Stud Northland Breeders' Stakes [registered as Whangarei Breeders' Stakes] will in future be run as a spring 3YO race, changing its place in the calendar from July to September. To facilitate this change the race will not be programmed as a black type race in the 2010-11 season, but will re-appear in September 2011.
5. With uncertainty over the future of three Avondale JC Group 2 races, the Committee has supported, for this season only, a NZTR submission to transfer the stewardship of these races to Auckland RC. Details of these changes appear in 4.9 on page 12 of this report.
6. The Committee is of the view that to maintain flexibility for future deliberations, 1st Warnings will be issued at the earliest sign of any decline in the quality of a race. There are currently 28 races with 1st Warnings compared to 33 on the previous list, and 19 races with 2nd Warnings compared with 19 previously. There are 9 races that have had their Warnings removed.

SECTION 1

INTRODUCTION

1.1 CONSTITUTION & CONVENTION

The New Zealand Graded Stakes Committee (GSC) is constituted in Rule 506 of the Rules of Racing. It is an independent committee jointly convened by New Zealand Thoroughbred Breeders' Association Inc. (NZTBA) and New Zealand Thoroughbred Racing Inc. (NZTR). The secretariat of the GSC is provided by NZTR.

1.2 COMPOSITION & SCHEDULE

1.2.1 The GSC is comprised of eight voting members, viz. a Chairman who is appointed by NZTR after consultation with NZTBA, three nominees of NZTBA, three nominees of NZTR and one nominee of NZTBA to represent the thoroughbred auction companies. The personnel appointed to the Graded Stakes Committee are expected to have the expertise and experience to exercise flexibility and discretion whilst continually maintaining a review of appropriate levels of Black Type opportunity for horses of different age, sex and aptitudes, throughout the total New Zealand racing scene. Committee appointments are made in December each year and take effect for the following calendar year.

1.2.2 The GSC meets three times per year, usually in the third week of June when primary statistical data first becomes available, at the end of the racing season to facilitate production of the Annual Report, and (by teleconference) in November to review autumn two-year-old races and prestige jumping races. Every year, usually at the June meeting, the GSC conducts a robust review of its procedures and criteria and holds a frank discussion of all matters considered relevant.

1.2.3 A GSC member has a conflict of interest with respect to the review process when that member, or their spouse, partner or immediate family member, is an office-bearer or management employee of a New Zealand racing club or of an organisation currently sponsoring a black-type race. Any member having disclosed a conflict of interest will not be debarred from participating in any discussion during the review. If consensus amongst committee members is not apparent regarding a particular race under review and the Chairman calls for a vote, then any member having a conflict of interest relating to that race will forfeit their right to vote on that particular race and may be asked to leave the room during the voting process.

1.2.4 The GSC for the past season comprised :

Chairman:	Mr Chas Amon, Auckland
NZTR Nominees:	Mr Tom Jamison, Otaki

Mr Russell Warwick, Papakura
Mr Jeff McCall, Christchurch
NZTBA Nominees: Mr Michael Martin, Auckland
Mr Nick Wigley, Rangiora
Mr Stephen Till, Cambridge
Auction House: Mr Andrew Seabrook, Papakura

1.3 OBJECTIVES & RESPONSIBILITIES

The function of the GSC is to annually review the best races in New Zealand for horses of different ages, gender and aptitudes and to produce a list of races worthy of black type status in sales catalogues in line with international standards, and to rate those races as (in descending order of importance) Gr.1, Gr.2, Gr.3 and Listed. Further, it is to produce a list of Prestige Jumping Races in NZ.

It is the responsibility of the GSC to conduct that review in a manner that conforms to international standards and utilises clear and consistent criteria. It also has a duty to communicate its findings in an Annual Report to be circulated to interested parties in August each year.

The GSC must remain aware that the integrity and international credibility of our black type system is crucial to the national thoroughbred industry. The Committee makes recommendations to Clubs and/or the Pattern Review Committee (PRC) where it feels that the pattern of racing could be improved with the introduction of a particular type of race or races.

1.4 INTERNATIONAL PERSPECTIVES

The NZ list of black type races and their groupings is submitted through the Asian Racing Federation (ARF) to the International Grading and Race Planning Advisory Committee (IRPAC), who in turn recommends the list to be ratified by the Society of International Thoroughbred Auctioneers (SITA). The list is then published along with all other approved national lists in the annual International Cataloguing Standards and International Statistics booklet ("Blue Book"). It is important to recognize that retention of N.Z.'s membership in Part One of the Blue Book is crucial to the national thoroughbred industry.

1.5 REVIEW PROCESS

There is no appeal process available against the decisions of the Committee in respect of any race or races. However, application may be made to a Review Panel for a review of the Committee's list as outlined under Rules 506 (9)-(12). An application for a review does not apply in respect of a warning.

SECTION 2

HISTORY

2.1 BLACK TYPE

Black-type (or stakes) races are those that differentiate prestige races from others. The purpose of black-type races is to confer additional status (and therefore implied value) to the placegetters in those races. The first three finishers in designated black type races receive bold typeface in sales catalogue pedigrees. The appearance of black type in catalogues had its origins in North American catalogues in the 1950s. It was first adopted outside of North America by New Zealand in 1970. In the early 1970s Europe adopted the black-type system for their pattern races and other countries followed.

2.2 GROUP DESIGNATIONS

Black type races are rated (in descending order of importance) with the designators Gr.1, Gr.2, Gr.3 and Listed. Group designators grew out of the European Pattern Race System in the early 1970s. It was quickly adopted in North America and then gradually adopted throughout the rest of the thoroughbred world, including New Zealand in 1984-85.

2.3 INTERNATIONAL UNIFORMITY

In 1981 the International Cataloguing Standards Committee (ICSC) was formed to oversee the publication (Blue Book) of all lists of black type races worldwide and promote uniformity of standards. In 2007 ICSC transferred responsibility for this role to IRPAC.

2.4 NEW ZEALAND DEVELOPMENTS

New Zealand's black type races were determined initially by the senior pedigree compiler at the then sole auction house. From about the mid-1970s the task was done by a committee of representatives of NZTBA, the auction house and New Zealand Racing Conference (NZRC), predecessor of NZTR. The committee was overseen by NZRC. In 1995 a complete review of the process was undertaken, resulting in the current structure of the GSC being implemented.

2.5 REGISTERED RACENAMES

In 2001 Registered Racenames were introduced to enable a race to be identified over a period of years, regardless of the changes that may be made to its raceday name. The Registered Racenames provide the historical link to the current racename and sponsor.

SECTION 3

OPERATING PROCEDURES

3.1 INTERNATIONAL CONVENTIONS

The GSC compares New Zealand's list of black type races to those of other countries in Part 1 of the Blue Book in order to ensure the international credibility of the black type in our sales catalogues.

3.1.1 Number of black-type races

As a target, the GSC restricts the number of black type races in New Zealand to approximately 5% of the estimated number of flat races run during the season. This is in line with most other racing jurisdictions and is considered appropriate for New Zealand.

3.1.2 Pyramid model

With regard to the allocation of group designators to New Zealand's black type races, the GSC endeavours to establish and maintain the widely accepted "pyramid" model used by most countries in Part 1 of the Blue Book. The ideal pyramid has approximately 12% Gr.1, 15% Gr.2, 23% Gr.3 and 50% Listed.

3.1.3 Category opportunities

The GSC oversees the full range of horse categories (age, gender, distance aptitude) so that all horses might have adequate opportunities to compete for black type status.

3.2 CRITERIA

3.2.1 Quality.

The paramount criterion applied by the GSC is established quality of the field over time.

3.2.2 Race conditions.

In the overall pattern, weight-for-age is given higher priority than set weights, which is given higher priority than set weights and penalties, which is, in turn, given higher priority than handicap conditions.

All black type races for 2YOs and 3YOs are to be run at set weights or set weights and penalties.

In line with international trends, it is unlikely that further handicap races will be elevated to Gr.1 status.

Races for which entry is restricted to horses sold at a particular sale or sales are not eligible for group status. Furthermore, to be granted (R) Listed status, such a race must achieve a standard of quality equivalent to a group race.

3.2.3 Prize money.

Black type races must be run for a stake that meets or exceeds minimum levels that are subject to annual review by NZTR.

3.2.4 The pattern.

The GSC considers each race's timing and place within the pattern of racing.

3.2.5 Continuity.

Continuity on the list and with a particular grading is considered desirable, so long as that continuity is credible and does not compromise the integrity of the system.

3.2.6 Miscellaneous.

Other criteria may be considered if deemed to be relevant, e.g. historical importance, regional factors, impact of adverse weather, opportunities for various aptitude categories, etc.

3.3 ASSESSMENT METHODOLOGIES

3.3.1 Australia and New Zealand Race Classifications (ANZ Ratings).

The GSC has adopted the end of season ANZ Ratings as its primary statistical assessment tool. This rating averages the first four finishers in a race, as rated for their full season's performances. A race's ANZ Rating is evaluated by the GSC in conjunction with that race's historical ratings for up to the five most recent renewals. If required, consideration is also given to the ratings of the highest rated four runners and the first eight placegetters.

3.3.2 New Zealand handicap ratings.

The GSC also has at its disposal the NZ race day handicap ratings for the starters in all races reviewed. The GSC will consult these if the ANZ Ratings do not provide clarity in a particular comparison between races.

3.3.3 Full field results.

The GSC also has the official result files of all races reviewed, along with the number and quality of black type performers (covering the current and previous season) in each race.

3.4 UPGRADING / DOWNGRADING

3.4.1 Conditions for gaining black type.

(A) For a race to gain entry to the black type system a position must be available within the allowable number of black type races for New Zealand, (approximately 5% of races run). The race must have achieved in its recent renewals a level of quality higher than that of the lower rating races already on the list catering for a similar category of horse.

(B) It must also have been run under the same terms and conditions, distance and timing for two consecutive previous renewals. (This may be deviated from in the most exceptional circumstances).

It is not necessary for a host club to make a submission for entry to the black type system. The GSC maintains a "watch list" of all unrestricted races run for a stake of (currently) \$40,000 or more and reviews that list every year.

3.4.2 Conditions for maintaining status.

Other than continuing to meet the field quality criterion, some other conditions must also be maintained. A race may be subject to re-assessment by the GSC if there are changes proposed in terms of one or more of –

- (a) the distance (more than 200m)
- (b) the date (more than 2 months)
- (c) the stake
- (d) the venue
- (e) the host club
- (f) the race conditions

Each change or combination thereof is considered on a case-by-case basis and must be notified by the host club to the GSC at the earliest opportunity.

If a scheduled black type race is not programmed by its host club, or, if having programmed it, the host club declines to run the race prior to the calling of nominations, then NZTR may at its discretion re-allocate the race to another club willing to run the race under the same terms and conditions within the current pattern. If a black type race has had nominations called for, then the club must run the race, regardless of the number of acceptors.

3.4.3 Conditions for downgrading a race (Warning Process)

(A) When a race is being considered for downgrading, a written warning will be given to the host club and the race will not be downgraded until it has been run with a second warning.

(B) Where a club has already had a first warning in respect of a race, the warning may be maintained, lifted or progressed to a second warning.

(C) Because a club is entitled to have two further renewals of a race at the status quo after the issue of a first warning, the GSC intends to issue first warnings at the earliest sign of decline in the quality of a race.

(D) Where a second warning has been issued, this may be maintained, removed completely, reverted to a first warning or the race may be downgraded.

(E) Black type races scheduled for the early part of the season and carrying a second warning that have already been advertised in Thoroughbred Racing Monthly (TRM) prior to the June meeting of the GSC, will carry disclaimers in TRM noting that the club and NZTR each reserves the right to alter the conditions of the race including the stake and/or the black type status of the advertised race if it is downgraded by the GSC.

(F) Black type races run for a stake below the minimum prescribed level will be automatically downgraded for that running irrespective of any warning level attached to the race.

(G) The required warning period is also not applicable where a race has undergone significant change (as detailed in 3.4.2 above). Such a change may be approved by the GSC at its discretion with or without the imposition of a (greater) warning level.

For a race to be de-listed the GSC must give consideration to the “pyramid” structure which limits black type to approximately 5% of races run.

3.4.4 Conditions for upgrading a race.

(A) For a race to be considered for upgrading within the black type system the GSC must be satisfied that a vacancy exists in the relevant category above.

(B) It must have achieved in its recent renewals a level of quality higher than that of the lower rating races in the category above catering for a similar category of horse.

(C) It must also have been run under the same terms and conditions, distance and timing for two consecutive previous renewals. (This may be deviated from in the most exceptional circumstances).

The GSC invites clubs to make submissions for their races to be upgraded, but a submission is not a prerequisite for upgrading and the GSC will upgrade races without submissions where appropriate.

SECTION 4

COMMENTS & RECOMMENDATIONS

- 4.1** The Committee remains very concerned that the current New Zealand “pyramid” (ref. Operating Procedure 3.1.2) still does not match international expectations. The first step in addressing that situation is to downgrade about three Group 1 races. This step is bound to meet resistance from the Clubs affected, but it is a necessity if the Committee is to meet its obligation to ensure the international credibility of New Zealand black type in sales catalogues worldwide. Given the Guiding Principles that the Committee operates within, as prescribed by the Rules of Racing, it is unable to address this issue other than by utilising the warning system. It is noted that utilising the warning system would mean that a race would be afforded a further two renewals prior to any downgrading, hence prolonging the necessary remedial adjustments required to be made to the pyramid.
- 4.2** From time to time it becomes apparent that some stakeholders still do not understand the way in which this Committee is constituted. It is not a sub-committee of either NZTR or NZTBA. The Graded Stakes Committee is jointly appointed by, but independent of, those two bodies. The Committee submits the listing of New Zealand’s black type races to IRPAC without requiring the approval of the two convening bodies and its decisions are final, subject to the review process outlined under 1.5 in the Introduction.
- 4.3** It is the responsibility of the club to notify the GSC where a significant change in conditions is contemplated. Changes in one or more of the distance, timing and conditions can in fact result in an entirely different race being conducted. Although the Committee is sympathetic to programming and other issues, the integrity of the system is paramount.
- 4.4** For the 2010/11 season, the Committee supports the Minimum Stakes Levels adopted by NZTR and set out below:

Status	Minimum Stake
Group 1	\$200,000
Group 2	\$85,000
Group 3	\$70,000
Listed	\$45,000

- 4.5** Appreciation is expressed to those involved with making submissions, the majority of whom follow the guidelines advised to clubs, which in turn assists the Committee with its deliberations.

- 4.6** When considering the six Listed 2YO races (CJC Champagne Stakes, Great Northern Champagne Stakes, Great Northern Foal Stakes, Triton Stakes, Whangarei Breeders' Stakes and Ryder Stakes) run after 1 April each season, the Committee considers subsequent 3YO form up to 31 October and then provide a supplementary report detailing the status of these six races for the current season, by 30 November each season. The Prestige Jumping Races are also considered at the November meeting.
- 4.7** The Committee has identified what appears to be a gap in the calendar for North Island staying 3YO fillies in the autumn after the New Zealand Oaks and Manawatu Breeders' Classic. There appears to be an opportunity for Clubs to develop a suitable race in this period. In fact all 3YOs, especially 1400m-milers seem under-catered for from about March until May. The fillies & mares (3YO & older) as a group are not particularly well catered for, especially from mid-December until early March. It is noted by the Committee that other comparable racing jurisdictions seem to provide many more opportunities for the fillies and mares category and this Committee would like to see every major carnival in NZ programme at least one race for this category.
- 4.8** The Committee considered a submission from Whangarei RC to alter the conditions of the Westbury Stud Northland Breeders' S. so that it would be run in future as a spring 3YO race rather than a winter 2YO race. The race has been struggling to attract a quality field in recent years and the Committee resolved to support the Club in this initiative. The race will not be programmed in the 2010-11 season, but will re-appear as a Listed 3YO race in September 2011 when it will be run under a second warning.
- 4.9** The Committee considered a submission from NZTR to transfer to Auckland RC the three Avondale JC black type races lost when the latter club relinquished its dates for this season. It was considered vital that the three Group 2 races be run in 2010-11 for the benefit of all industry stakeholders. The Committee resolved to support the submission for the 2010-11 season only at this time, pending the outcome of Avondale JC's attempts to resume racing after this season. The Concorde Handicap will be run at Ellerslie under the same conditions and in the same timeslot as previously. The Avondale Guineas will be run over 2100m in February and the Avondale Cup will be run over 2400m at the same February meeting. To accommodate the Avondale Guineas in its new timeslot, the 3YO pattern has been altered. The Auckland RC Championship Stakes will now move to early January and the Great Northern Guineas will revert to its traditional distance of 1600m. These changes had already been supported by the Pattern Review Committee.
- 4.10** The Committee now has five years' accumulated data relating to the ANZ Classification's race ratings of NZ's black type races. In line with international expectations, the Committee will place more emphasis on this, our primary statistical assessment tool. Over the next few years we hope to develop appropriate benchmark ratings for each age-group

and gender at each Group (or Listed) level and these will be the guideline to the lowest rating we expect races to achieve over any given 5-year period. The Committee will always retain the discretionary right to deviate from these figures in exceptional circumstances as the grading of races for black type purposes can never be purely statistical.

SECTION 5

SUMMARY

5.1 As a result of the review, the number of black type races for 2010-11 compared with previous seasons is as follows:

Status	10-11	09-10	08-09	07-08	06-07	05-06
Group 1	22	22	22	24	24	24
Group 2	23	23	23	23	23	22
Group 3	33	33	33	29	31	32
Listed	67	68	68	70	69	70
Total	145	146	146	146	147	148
PJR	N/A*	13	13	13	11	12

** The number of Prestige Jumping Races will be confirmed at the Graded Stakes Committee meeting in November.*

5.2 The 2010/11 list includes the following changes to the previous season:

Promotions/Relegations

De-listed DLA Phillips Fox Cornwall Handicap [Cornwall Handicap]

5.3 The number of Black Type races for each season equates approximately to the 5% of flat races run prescribed in Operating Procedure 3.1.1.

There were 2,946 flat races run in the 2009/10 season and 146 black-type races scheduled which represents 4.96%.

5.4 There are currently 28 races with 1st Warnings compared to 33 on the previous list, and 19 races with 2nd Warnings compared with 19 previously. There are 9 races that have had their Warnings removed.

5.5 Relegations

De-listed

DLA Phillips Fox Cornwall Handicap [Cornwall Handicap]

The race has been in constant decline for a number of years and under second warning since 2007. The Committee is not satisfied that the overall quality of the race has improved and has determined that it does not warrant its Listed status. Accordingly, the race has been deleted from the Listings for the 2010/11 season.

5.6 Summary of Warnings

Status	2nd Warnings Maintained	2nd Warnings Issued	Reverted to 1st Warnings	1st Warnings Maintained	1st Warnings Issued	1st Warnings Removed
Group 1	0	1	0	2	0	4
Group 2	1	1	0	3	1	1
Group 3	1	1	4	2	2	0
Listed	11	3	1	11	0	4
Total	13	6	5	18	5	9
