MEDIA RELEASE

RICCARTON PARK – CHRISTCHURCH CASINO NZ CUP MEETING UPDATES

RICCARTON PARK TRACK UPDATE

A penetrometer reading taken this afternoon (Friday 2 November) indicates that the Riccarton Park track is in the Slow7 range. This is ideal eight days out from Al Basti Equiworld NZ 2000 Guineas Day and follows 44 mm of rainfall since the racemeeting on Saturday 27 October 2018.

FASTTRACK INSURANCE PROVIDES BOOST TO RICCARTON PARK STAKE

The FastTrack Insurance initiative will add \$5,000 to the stake for the 1400 metre maiden race at Riccarton Park on Saturday 10 November 2018.

The FastTrack Insurance Maiden will now have a total stake of \$35,000. The maiden race was chosen to expose the benefits of the FastTrack Insurance initiative to what is likely to be one of largest ownership groups on the day.

BrokerWeb CEO David Archer said that “FastTrack will be announcing a significant figure of added stakes races which will feature over the Christmas and New Year period and it’s great to be able to start with one of these during Riccarton Park’s high-profile New Zealand Cup Meeting. Once again, we wish to thank everyone who has switched their insurances to FastTrack”, Archer said. This support will ensure that these added-stake races will continue to evolve across the country.”

Those considering a switch to FastTrack can snap or scan their current schedules to info@fasttrackinsurance.co.nz or visit www.fasttrackinsurance.co.nz or call 0800722369.
